

The First KU-SJTU Joint Workshop on Environment and Energy Issues in Relation with Novel Carbon Resource Sciences (NCRS G-COE Symposium/Workshop Series 2008-II)

Organized by

Global COE program of "Novel Carbon Resource Sciences: Coal-Based Eco-Innovations", Kyushu University
12 November, 2008, Chikushi Campus, Kyushu University

Shanghai Jiao Tong University (SJTU) is one of core international partners of the global COE program of "Novel Carbon Resource Sciences; Coal-Based Eco-Innovations", Kyushu University (KU). Students and Staffs of SJTU are invited by the COE program to participate in the 10th Cross Straits Symposium on Materials, Energy and Environmental Sciences (10CSS*) which will be held at Chikushi Campus, KU on 13-14 November, 2008. By taking this opportunity, the COE program organizes the First KU-SJTU Joint Workshop on Environment and Energy Issues in Relation with Novel Carbon Resource Sciences as a kickoff of student-level exchange event between two universities.

PROGRAM

- 15:00- Opening
- 15:05- Introduction of the G-COE program "Novel Carbon Resource Sciences; Coal-Based Eco-Innovations"
Prof. Hideo Nagashima (Kyushu University)
- 15:30- Discussion about the KU-SJTU Collaboration in the framework of the G-COE program "Novel Carbon Resource Sciences; Coal-Based Eco-Innovations"
- 15:50- Break
- 16:00- Discussion about the "Selected Topics" by students
- 17:30 Closing

* The aim of CSS is to provide graduate students with the opportunity to present their scientific findings to overseas counterparts in English and exchange opinions not only on their research but also on mutual interest in the era of globalization. The graduate students will be exposed to many different viewpoints, thus providing them with a much broader perspectives. This event is expected to be very helpful in promoting friendship among graduate students from different countries. The CSS is originally organized by Pusan National University (Korea), POSTECH (Korea) and Interdisciplinary Graduate School of Engineering Sciences, KU. Since the concept of the CSS is in accordance with that of the Global COE program, SJTU is invited as one overseas counterpart.
