

1st G-COE International Workshop on Energy and Environment in Chemical Engineering

December 5, 2008

C-Cube_ Room303, Chikushi Campus, Kyushu University, Fukuoka, Japan

ORGANIZER

Global COE Program of "Novel Carbon Resource Sciences: Coal-Based Eco-Innovations" (Kyushu University)

Fukuoka Women's University

Department of Chemical Engineering, Kyushu University

PROGRAM

- 14:00 Opening "Novel Carbon Resource Sciences"
Prof. Nagashima (Kyushu Univ. Japan)
- 14:10 "Current Status of Clean Fossil Energy Technology in KOREA"
Prof. Sang Done Kim (KAIST, Korea)
- 14:50 "Application of carbon materials in fuel cell industry"
Dr. Doo Hwan Jung (KIER, Korea)
- 15:30 Break
- 15:50 "Catalytic Cracking of Waste Plastics and Used Vegetable Oil to Liquid Fuel"
Prof. Tharapong Vitidsant (Chulalongkorn, Univ., Thailand)
- 16:30 "Application of Zeolite Membranes for Preparation of Bioethanol"
Prof. Yongtaek Lee (Chungnam National Univ., Korea, Korea)
- 17:10 Closing

CONTACT
