

2nd G-COE International Workshop on Energy and Environment in Chemical Engineering

November 4, 2009

Ito Campus, Kyushu University, Fukuoka, Japan

Sougou Gakushu Plaza, 2 nd floor, Room No 12

ORGANIZER

Global COE Program of "Novel Carbon Resource Sciences: Coal-Based Eco-Innovations" (Kyushu University)

CO-ORGANIZER

Department of Chemical Engineering, Kyushu University

Fukuoka Women's University

Division of Thermal Engineering, The Society of Chemical Engineering, Japan

PROGRAM

13:30~13:40 Opening

“Novel Carbon Resource Sciences”

Prof. Nagashima (Kyushu Univ., Japan)

13:40~14:20

“Energy Savings by the Conventional Dyeing with the Supercritical Fluid Dyeing”

Prof. Jae-Jin Shim (Yeungnam Univ., Korea)

14:20~15:00

“Strategy of Indonesia Coal Technology Development 2005–2025”

Dr. Djoni Bustan (Sriwijaya Univ., Indonesia)

15:00~15:20 Break

15:20~16:00

“Design and Energy Saving of Reactive Divided Wall Column System for an Ideal-Component System”

Dr. Lee Hao-Yeh (National Taiwan Univ., Taiwan),

16:00 Closing
